## ABOUT ME

---

Enthusiastic team player with a passion for web development – especially the front-end. Graduated from Aristotle University of Thessaloniki with a BSc in Computer Science. Currently building a portfolio of projects and started writing blog posts about the most interesting concepts. Always eager to explore new technologies while following the best practices and looking forward into becoming a better version of myself each and every day.

## EDUCATION

---

**Aristotle University of Thessaloniki • BSc Computer Science • Sep 2015 to July 2021**

Thesis Title: “Web usability: Task-based card sorting”

## FEATURED PROJECTS

---

**Personal Website** Next.js • twin.macro (CSS-in-JS with Tailwind) • MDX • Framer Motion

Built with Next.js and used TypeScript in order to increase productivity. Picked twin.macro for styling, which blends the magic of Tailwind with the flexibility of CSS-in-JS, and Framer Motion as the animation library. Opted to build the blog posts ahead of time – when the site is generated (SSG).

**Burden Off** React • Bootstrap • Express.js • MySQL

A CRUD web application, created collaboratively with fellow colleagues during undergraduate studies. Have been completely responsible for the UI/UX design and front-end development. Actively participated in discussions about the back-end as well.

**Card Sorting Tool** React • Bootstrap • jQuery

A card sorting tool, created specifically for an experiment of my thesis, and used by a number of people.

## TECHNICAL SKILLS

---

### Languages

TypeScript / JavaScript (ES6), HTML5 (Semantic),  
CSS3 / SCSS / Sass / Less / CSS Modules / CSS-in-JS,  
Python, PHP, Java, SQL, GraphQL

### Frameworks / Libraries

React (Hooks, Context, Redux), Next.js (SSG & SSR),  
Gatsby, Preact, Angular, NgRx, RxJS, MDX, Bootstrap,  
Tailwind CSS, GSAP, Framer Motion, Three.js,  
Storybook, Stripe.js, Node.js, Express.js, Nest.js

### Databases

MySQL, PostgreSQL, MongoDB, Redis

### Tooling / Software / Other

Git, Babel, ESLint, Prettier, Yarn, npm, SEO, REST,  
Docker, webpack, husky, Figma, Photoshop

## LANGUAGES

---

**Greek • Native Speaker**

**English • Professional Working Proficiency**  
**B2 First - Cambridge English: First (FCE)**

## INTERESTS & ACTIVITIES

---

UI/UX Design • Problem Solving •  
Technology / Science / Astronomy News •  
Fitness • Blogging • Gaming
