ABOUT ME

I'm an enthusiastic team player with a passion for web development – especially the front-end. I've graduated from Aristotle University of Thessaloniki with a BSc in Computer Science. Right now I'm building a portfolio of projects where I can show my skills and love about what I do. I'm always eager to explore new technologies while following the best practices and I look forward into becoming a better version of myself each and every day.

EDUCATION

Aristotle University of Thessaloniki • BSc Computer Science • Sep 2015 to July 2021
Thesis Title: "Web usability: Task-based card sorting"

FEATURED PROJECTS

Personal Website   **Next.js • twin.macro (CSS-in-JS with Tailwind) • MDX • Framer Motion**
My personal website & blog built with some of my favorite technologies where I can showcase my work and write articles about anything new I learn and want to share with the tech community.
I highly encourage anyone interested in finding out more about me or contacting me to visit it.

Burden Off   **React • Bootstrap • Express.js • MySQL**
A complete CRUD web application that was created collaboratively with fellow students during our undergraduate studies. I was completely responsible for the UI/UX design and front-end development. I've actively participated in discussions about the back-end as well.

Card Sorting Tool   **React • Bootstrap • jQuery**
A card sorting tool, created specifically for an experiment for my thesis, and used by a number of people.

TECHNICAL SKILLS

Languages
TypeScript / JavaScript (ES6), HTML5, CSS3 / SCSS / Sass / Less / CSS Modules / CSS-in-JS, Python, PHP, Java, SQL, GraphQL

Frameworks / Libraries
React (Hooks, Context, Redux), Next.js, Gatsby, Angular, NgRx, RxJS, Node.js, Express.js, MDX, Tailwind CSS, Bootstrap, GSAP, Framer Motion

Databases
MySQL, PostgreSQL, MongoDB

Tooling / Software
Git, Babel, ESLint, Prettier, Yarn, npm, Docker, webpack, husky, Figma, Photoshop

LANGUAGES

Greek • Native Speaker
English • Intermediate Level
B2 First - Cambridge English: First (FCE)

INTERESTS & ACTIVITIES

UI/UX Design • Problem Solving • Blogging • Technology / Science / Astronomy News • Fitness • Learning new skills • Gaming
